Fabrics4Fashion is a specialist fabric supplier aimed at both fashion designers and the couture market. In today's fast moving industry, minimising waste and reducing cost is essential in bringing design to the market. Unlike other suppliers Fabrics4Fashion enables you to buy as little as

one meter of fabric, optimising your investment costs. Our library of 7,500 of the finest European milled fabrics gives you a comprehensive range to suit your creative direction. Just as we work with top design houses, we can work with you to find the perfect fabric for

your latest collection. With over 30 years experience in sourcing and providing fabrics, we opened our online store in 2014 which we will continue to grow. We look forward to your visit either online or in our London showroom
